

Summer Works Promotion with CSC

Manufacturers and Suppliers of Laboratory Equipment

CSC, established in 1980, is the leading supplier of Laboratory Fume Cupboards in Ireland. For more than 28 years we have been supplying customers with the best laboratory equipment available and backed up by an incredible after sales service. We are recognised experts in the field of Fume Cupboards, Fume & Vapour Extraction, Laminar Flow, Biological Safety Cabinets and Solvent Storage. Over the last few years we have expanded our manufacturing capabilities with a new range of bespoke laboratory Furniture. The venture has lead to phenomenal success and cemented our reputation as leading Laboratory Equipment Specialists. We also provide consultancy services to Consulting Engineers & Architects in the design stages of large projects. We are very careful to select only the highest quality suppliers for all of the equipment we represent, and ensure this through continuous customer satisfaction reviews.

ChemFlow School Fume Cupboard

The CHEMFLOW fume cupboard was the first to achieve the BS 7258 in 1991 & in 1999 achieved near perfect containment score at 0.5m/s and 0.38 m/s making it the most advanced fume cupboard on the market at that time. Since then we have continued the pursuit of excellence in fume containment with enhancements to our design and to the systems. In 2008, BS sought a higher calibre of Fume Cupboard. CSC rose to the challenge and was awarded the latest EN14175 certificate. The results of ChemFlow BS test exceeds industry standards and is a credit to our R&D and Production departments.
