

CSC FURNITURE RANGE

CSC FURNITURE RANGE

Our range of furniture is designed to suit all of your current and future needs. With expertise in custom designed laboratory solutions and a range that includes laminate and stainless steel furniture, CSC are the experts in high quality laboratory design and installation.

Laminate Furniture

As different laboratories have different requirements, whether pharmacy, computer, chemistry or bio-science, CSC has designed and developed a Laminate range to provide a flexible and adaptable laboratory system.

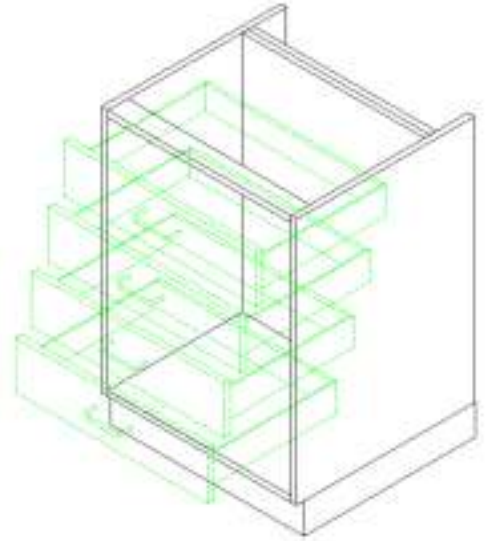

Available in fixed, suspended and mobile options, careful attention to detail and an understanding of the requirements of users in situations with perimeter and peninsular layouts and including various re-agent shelves, ensures that CSC maintains a leading position in laboratory design and installation.

Custom designed laboratory furniture

3-D Design Facility

Our expert design team are available to assist the creation of your dream laboratory. Using a 3D design facility, we will bring your project to life and allow you to experiment with colours, texture and layouts.

Our experienced team provide high quality installations. Each install is subject to a series of quality checks to ensure our customers' requirements are met and the standard exceeded.

For more information on this range, please contact our design team on 01-835 1311.
